Hello Sally and William,

Please revisit the Village at Vigneto proposal that was active in 2006. It was a bad idea then and it is a very bad idea now. This area is so fragile and dry, but it cannot support the thousands of humans that will come on top of the millions of creatures that already depend on the San Pedro River for water, for life. Please do not doom us to the loss of so many species, not just our threatened and endangered ones.

Sincerely,

Inga McCord
